Pirates Bed Tent

Item #19760

Thank you for purchasing the PIRATES BED TENT. The BED TENT has been manufactured with fun and ease of use in mind. Following the instructions and getting your child to help it can be a fun and rewarding experience and our products should give you care free use and fun, time and time again.

Let's get started!

PLEASE READ ALL OF THE DIRECTIONS PRIOR TO ASSEMBLY. DO NOT APPLY EXCESS FORCE TO THE POLES DURING ASSEMBLY.

Parts List • 2 - Patented G3 Pole System • 1 - Bed Tent Body • 1 - Fitted Detachable Sheet

1. Assemble the 2 sections of shock-corded poles so that you have 2 complete poles. (See diagram 1).
2. Now, lay the Bed Tent on the ground and pull out the four corners. Choose a corner of the tent and insert one of the poles into the pole sleeve. Slide the assembled pole through the sleeve and over the top of the tent into the opposite sleeve. For example, if you choose the Right Front corner of the tent to start, you want to slide the pole through the sleeve and across the top of the tent into the Left Rear sleeve. Do this making sure that the tent pole sections do not separate. **NOTE: DO NOT PUT THE ENDS OF THE POLE INTO THE POLE POCKET UNTIL BOTH POLES ARE COMPLETELY THROUGH THE RESPECTIVE SLEEVES.**
3. Repeat the same process with the second assembled pole (the poles should crisscross over one another at the top of the tent).
4. Once you have completed this process, place each one of the four pole ends into its respective corner pocket (the tent will now take shape). Each corner holds only one pole end.
5. Place the body of the Bed Tent over the mattress like a bottom "Fitted" sheet.
6. ENJOY!
